

Introducing SIPHISO MAYISELA.....

Living Conditions in Zwelihle

Siphiso's Methodist Church

The United Methodist Women of St. Paul's are providing educational support to **Siphiso Mayisela**, a ten-year-old resident of the Zwelihle Township in Hermanus, South Africa. Although Hermanus is a beautiful seaside resort, like other South African locales it includes a Township where people of color exist in adverse conditions.

A bit of hope in the Township is the Hermanus Waldorf School, which provides quality education to some very lucky children. Siphiso is one of them. He lives in a wooden shack as the only child of his mom, who is a cleaner, and his dad, who is a labourer at the Municipal Sewerage Works. The family belongs to the Zwelihle Methodist Church.

Siphiso came to the school as a fourth year student; he needs some extra lessons to catch up. He is very artistic, with a wonderful color sense. The school would like to provide extra art instruction to encourage his talent. Our UMW will provide the 1000 Rand (\$320) annual school fees for Siphiso. We will also collect supplies for the school and try to locate extra monies to give him the extra lessons he needs. Donations are joyfully accepted!

St. Paul's members Pat & Ray Greenwald visited Zwelihle last June. They are providing educational support for first year student **Kaydy Claasen**. If your family might be interested in having a South African buddy, please contact Pat at 410 489-6540 or patgreenwald@comcast.net
